

ConfigBase

```
classDiagram
    ConfigLinux --|> ConfigBase
    ConfigWindows --|> ConfigBase
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'ConfigBase'. Below it, a horizontal line connects two boxes: 'ConfigLinux' on the left and 'ConfigWindows' on the right. From the center of this horizontal line, a vertical line extends upwards to the bottom of the 'ConfigBase' box. This vertical line is topped with an open triangle, which is the standard UML notation for inheritance, indicating that both 'ConfigLinux' and 'ConfigWindows' inherit from 'ConfigBase'.

ConfigLinux
